DIFFUSOL™

REED DIFFUSER BASE

Diffusol™ is specially formulated to maximize the amount of fragrance oil that wicks up reed sticks.

Recommended to work with FCF oil-soluble & water-soluble fragrances.

Moderate evaporation rate for Reed Diffusers as well as:

- Air Fresheners
- Passive /Active Electronic Diffuser Systems

USAGE DETAILS

Recommended Formulation:

Diffusol™ [80% ~ 90%]
Fragrance Oil [10% ~ 20%]

(Any application should be thoroughly tested according to the specific conditions of use to verify the appropriate formulation and usage details.)

* FCF Oil-Soluble Liquid Dyes can be used to tint Diffusol™
We also recommend using a UV inhibitor for all color applications!
Ask your FCF representative about our UV stabilizers.

BENEFITS

- Easy to Use
- Compatible with FCF O/S + W/S fragrances
- Great opportunity to expand product line
- VOC Compliant (Contains no Alcohol)
- Phthalate-Free
- REACH-registered
- CA Prop 65 Compliant
